*“Pursue your profession, your interests,  
your hobbies, your needs.*

*There is no age limit to learning!”*

We offer courses to help you enrich your personal or professional life. Expand your skills in a variety of areas – wood-working, small engine repair, stained glass art, cooking, yoga, belly dancing, sewing and crafts. If you are planning to travel look at our language courses and digital photography courses. You can work on your business skills too with courses in accounting and investing, word processing, spreadsheets and databases. Look at our health and wellness courses too! If we have an instructor and a desire within the community then we will offer a course. Only ten students are needed to operate most courses. Our instructors are experts within their subject areas. **Adults, 18 years of age and older**, are always welcome. Most classes are wheelchair accessible. Be sure to check out our website too - [www.granderie.ca/genint](http://www.granderie.ca/genint). There are photos of many of the crafts made in various classes. We hope to see you soon!

### Arts and Crafts Courses

**A001**  
**Art Class for the Intimidated**  
With Denis Andre Tues. Oct. 5 8 sessions  
Pauline Johnson C.V.S. 7:00 - 9:30 pm  
Fee: \$95.00 + \$12.35 HST

This ART CLASS is for those who admire art but need to build confidence to explore their creative abilities. Those that admire the ability to draw and would like to create their own art will enjoy this Art class. The course would develop artistic skills by hands-on learning and completing art projects. Emphasis will be placed on learning to draw. For the first night please bring a sketchbook, graphite pencils, a notebook and several photographs and pictures that you admire and would like to create for yourself such as nature pictures, post cards, etc. A materials list will be made available for the creation of individually chosen Art projects. The main goal is to increase self-confidence and develop the artist within us all.

**A002**  
**Braided Rag Rug Workshop**  
With Helen Sluis Mon. Oct. 4 1 Session  
Pauline Johnson C.V.S. 7:00 - 10:00p.m.  
Fee: \$45.00 + \$5.85 HST

Unlike grandma's rag rugs, this 19<sup>th</sup> century technique involves a combination of braiding and "weaving" that produces a beautiful rug that is not only reversible and machine washable, but also virtually indestructible since it requires NO sewing at all. Participants will make two six-inch

trivets or may use their fabric as a starter for a larger project. A wide variety of practical items including placemats, chair seats and area rugs both large and small may be created using this method. All materials will be supplied by the instructor at a cost of \$10.00 (cash only) on the evening of the class.

**A003**  
**Chinese Brush Painting**  
With Nancy McLean Wed. Oct. 6 6 sessions  
Pauline Johnson C.V.S. 7:00 to 10:00 p.m.  
Fee: \$90.00 + \$11.70 HST

This class is open to anyone wishing to learn about the Chinese art of Brush Painting. Subjects will include bugs, flowers and birds as time allows. You will learn on semi-absorbent paper but bring any watercolour supplies you already have. In the last class we will stretch a picture so it is ready to be matted and framed. Artist quality materials are available to purchase from the instructor at an estimate of \$10 - \$65 cash first night of class.

**A004**  
**Knitting - The Basics and Beyond**  
With Gloria Ord Mon. Oct. 4 6 Sessions  
Pauline Johnson C.V.S. 7:00 - 9:30 p.m.  
Fee: \$90.00 + \$11.70 HST

Learn the ancient craft of knitting. Recent studies show that knitting is very therapeutic. Because we use both hands in knitting it is one of the few crafts that use both sides of the brain, and has been hailed as the 'New Yoga' Learn how to relax and have fun while learning to knit. This course will

take you from learning the basic knit and purl stitches, casting on and binding off, to more advanced knitting techniques, Students will learn how to read patterns, knit in the round, knitting with set of four needles, knit socks, Cables, Lace patterns, Fair Isle, Kitchener Stitch, I-cords, Provisional cast-on, several alternate cast on and bind off methods. Knit soft toys, Bring out the best in your variegated yarn. Learn to avoid stripes, and emphasize texture. Review a variety of yarns and learn their properties, while knitting swatches to experiment with textured stitches, multiple strands, and stitch count, and much more. Learn to complete your knits like the pros. You will need 1 pair size 6mm needles. There will be a small fee of \$2.00 cash for the Yarn the first night of class. When the first project is complete, students can then choose their next project.

**A005**  
**Introduction to Stained Glass**  
With Loon's Call Studio Tues. Oct. 5 6 sessions  
Loon's Call Studio, 5 Pinehill Dr. 7:00 - 9:00 p.m.  
Fee: \$95.00 + \$12.35 HST

Stained glass is a wonderful lifetime hobby and it is well suited for the young and "the forever young". We teach in small classes of 4 or less so you have more one on one time with the instructor. You will learn how to cut glass, grind, foil and finish one project that is yours to keep. With this course there is no investment for tools and supplies. We love our craft and invite you to join us, have some fun and learn a new hobby. All necessary materials will be supplied by the instructor at a cost of \$72.00, including taxes, payable in cash at the first class.

**A006**  
**Advanced Stained Glass - Foil Construction**

**Loon's Call Studio, 5 Pinehill Drive** 7:00 – 9:00 p.m.  
**Fee: \$95.00 + \$12.35 HST**

TAKE YOUR SKILLS TO THE NEXT LEVEL. Bring your imagination, ideas and your own tools to this advanced course. Learn to use varying widths of foil to greater effect, methods of reinforcing larger projects, drilling holes in glass, use of textures and accents in a project. This is your chance to be introduced to band and ring saws and a grinder that will bevel the edges of your glass to allow a finer join on 3D projects. You must have taken a minimum of a beginner's course and have continued on your own to advance your skill levels OR you must make arrangements with our studio so we may evaluate your skill level prior to the first class. Please call us at 519-752-9949. The materials are available at our studio and the costs will be based on your choice of project, glass type and colour, etc. These will be paid as purchased by cash only.

**A007**  
**Panel Lamp Shade**  
**With Loon's Call Studio** Thurs. Oct. 7 6 Sessions  
**Loon's Call Studio, 5 Pinehill Drive** 7:00 – 9:00 p.m.  
**Fee: \$95.00 + \$12.35 HST**

Students will construct a lamp shade using a pattern of their own choosing. This may be for a lamp base you already own or you may purchase a base at the studio. You will choose your pattern and purchase the required materials at the first class. NOTE: **The student must be experienced in foil and solder construction.** If in doubt about experience level, please feel free to call Loon's Call Studio (519-752-9949) to discuss qualifications. The student will be required to use all their own tools for this course. Tools and supplies are available at the Studio prior to or at the beginning of the course. Payment: cash only. Depending on the complexity of the design chosen and course time constraints, the student may be required to do some of the work at home.

**A008**  
**Stained Glass Christmas Decoration**  
**With Loon's Call Studio** Wed Nov. 17 6 sessions  
**Loon's Call Studio, 5 Pinehill Dr.** 7:00 - 9:00 p.m.

## Special Interest Courses

**D001**  
**Astronomy**  
**With Tim Philp** Wed. Oct. 6 8 sessions  
**Pauline Johnson C.V.S.** 7:00 - 10:00 p.m.  
**Fee: \$115.00 + \$14.95 HST**

When you look up at the night sky, have you ever wondered what you see there? What are the stars? How did they form? What are galaxies, nebulae, and black holes? In this course, geared towards people with an interest in astronomy but no special training, we're going to explore our night sky, constellations, our solar system, our galaxy, and what lies beyond the far reaches of space. In addition, we'll learn about past and current projects for space exploration, as well as future ideas for space travel. Our journey will also take us to black holes, quasars, supernovae, brown dwarfs, and the Big Bang. And lastly, we'll explore in depth on how we make observations from earth, and touch on the mechanics of optical telescopes that aid us in exploring the night sky. At the end of this course, you will be able to look at the night sky with understanding and wonder at the marvels of the universe.

**D002**  
**Brantford - A Local History**  
**With Bill Darfler** Thurs. Oct. 7 8 sessions  
**Pauline Johnson C.V.S.** 7:00 - 9:30 p.m.  
**Fee: \$95.00 + \$12.35 HST**

*In the beginning was the Ford.* The ancient trail between Niagara and Detroit crossed the Grand River at the site of present-day Brantford. The history of this area is rich with fascinating characters and stories. In an eight-week course, we will study Brantford's history from the melting of the glaciers to the present. Using a multi-media approach, this course will give you an overview of the challenges that Brantford has inherited from its' past. Join us, and bring questions.

**D003**  
**Emotional Freedom Technique (EFT) Level 1**  
**With Jo-Anne Eadie** Wed. Oct. 6 5 Sessions  
**Pauline Johnson C.V.S.** 7:00-9:30  
**Fee: \$ 85.00 + 11.05 HST**

Emotional Freedom Technique - EFT - taught and practiced over a five week period. You will learn the technique the first night and be able to go home and use it on yourself. Each week will build upon the next as we tackle issues of procrastination, weight, happiness, relationships, physical and emotional pain and more. See how easy it is to live a peaceful, prosperous, joyful life without old emotional pain that holds you back. Anxiety, Fears, Stress, Guilt, and Phobias. EFT doesn't give you amnesia, you still remember a painful incident or problem, but you do not attach an emotional charge to it. This allows you to think the problem out easily and effortlessly and find a solution. Usually taught in a one day workshop, I have found that people have wanted to practice it more with guidance. EFT is a gift to yourself for life.

D004

**Bellydancing Fitness**

With Elizabeth Vick Wed. Oct. 6 8 sessions  
 Pauline Johnson C.V.S. 7:00 - 8:00 p.m.  
 Fee: \$75.00 + \$9.75 HST

Bellydance: what an exotic-sounding word! It conjures up images of desert sheiks and harem girls; Scheherazade and the Arabian Nights; and camel caravans laden with rare silks, spices, and jewels. Belly dancing is natural to a woman's bone and muscle structure with movements emanating from the torso rather than in the legs and feet. The dance often focuses upon isolating different parts of the body, moving them independently in sensuous patterns, weaving together the entire feminine form. If fun is what you are looking for, this is the workshop.

D005

**Yoga**

With Elizabeth Vick Wed. Oct. 6 8 sessions  
 Pauline Johnson C.V.S. 8:15 - 9:15 p.m.  
 Fee: \$75.00 + \$9.75 HST

Developed in India over 5,000 years ago, yoga is a Sanskrit word meaning "yolk" or "union". Yoga encompasses many elements: spiritual, mental and physical. Hatha yoga is a system of physical postures called asanas, which were developed to heal the body by releasing tension, building strength and creating a stronger mind-body connection. Each physical posture, or asana, has benefits that help to create balance in the mind, body and spirit. Helps you relax and handle stressful situations more easily. Yoga helps to create a toned, flexible, and strong body as well as improving respiration, energy, and vitality. This class is for students of all ages. Bring your yoga mat with you.

With Jane Anderson Mon. Oct. 18 6 Sessions  
 Tollgate Technological Skills Centre 7:00-9:30 p.m.  
 Fee: \$85.00 + 11.05 HST

Are you interested in learning basic sewing techniques? In this class we will construct a pair of flannel pajamas with button front top, facings and elastic waist pants. Students must provide a sewing machine in good working order and basic sewing supplies. It is strongly recommended that you take "Know Your Sewing Machine" prior to taking Basic Sewing. We will use the Kwik Sew book which includes the patterns required as well as many useful tips for beginner sewers. The book and notions needed to complete the project must be purchased from the instructor on the first night of class. Basic sewing supply kits and 4.5 m flannel-ette can also be provided in a kit format by the instructor. You are not required to take your machine for Week 1 but it will be needed for each following lesson.

G002

**Serger**

With Jane Anderson Sat Oct. 23 1 Session  
 Pauline Johnson C.V.S. 9:00 a.m. - 4:00 p.m.  
 Fee: \$95.00 + \$12.35 HST

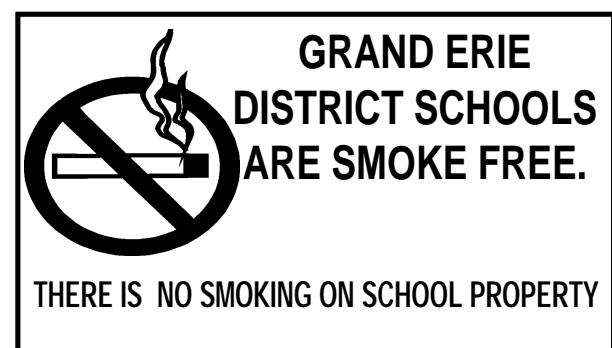

Do you have a serger sitting in a closet collecting dust because the thought of threading it scares you to death? Or do the tension dials give you a tension headache? This class will teach you to use your machine with confidence and give it the use it deserves. The morning will be spent threading, adjusting tensions, learning how to trouble shoot bad stitches and the techniques that make your serger different from your regular machine. The afternoon will be spent putting your new knowledge to use by making a pair of easy pajamas from cotton or flannel-ette. Students will be contacted with a list of supplies. Please... Your machine must be in good working order to get the most from this

G004

**Crazy Quilting Workshop**

With Helen Sluis Mon. Oct. 4 2 sessions  
 Pauline Johnson C.V.S. 7:00 - 9:00 p.m.  
 Fee: \$60.00 + \$7.80 HST

No careful measuring! No precision piecing! Crazy quilting consists of irregularly-shaped fabric pieces hand-stitched onto a muslin backing in a haphazard pattern, and the shapes are embellished with embroidery stitches and other trimmings such as beads, buttons, ribbons and charms. The end result is always fun, spontaneous and crazy! Create a patchwork wall hanging/pillow front you will enjoy for years to come. All materials will be supplied by the instructor at a cost of only \$15.00 (cash only) on the first evening of class.

**Almost all courses are at Pauline Johnson C.V.S.**

 Fee: \$178.00 + \$23.14 HST

6 Sessions  
 7:00-10:00 p.m.

If you have a digital camera but limited computer skills, then this course may be what you are looking for - computer basics as they apply to digital cameras. The general aims are to make you comfortable with connecting your camera to the computer and copying photographs to the computer. Once the photos are on your computer you will learn how to organize them, rename them as needed, create folders as needed, create albums, delete duds, mark favourites, make minor exposure and editing corrections including fixing red eye, cropping, adjusting the white balance, straightening horizons and so on. You will learn special techniques to create black and white photos, old-time sepia photos, romantic misty photos - all very easily, all reversible if you don't like the results! You will learn to burn your photos to CD or DVD so you have backups. With a Google email address you can create Internet albums of your photos to share with family and friends. We do assume you know how to use a mouse and can start programs. A complete set of course notes - nearly 200 pages - will ensure that you have your own permanent reference to all the materials covered in class. All the software will be provided for you to take home on a CD! Materials fee of \$20.00 cash on the first night. Dates: Oct. 5, Oct. 12, Oct. 19, Nov. 16, Nov. 23, Nov. 30.

6 Sessions  
 7:00-10:00 p.m.

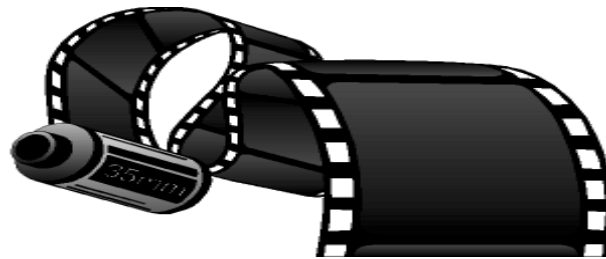

Have a digital camera - simple or advanced? Want to learn how to use it? Want to make use of all those options buried in menus on your camera? And maybe even learn to take better pictures? This course will help you learn to master your new digital camera - setting resolution, choosing the correct "scene" setting on your menu or command dial, changing the ISO value, setting the white balance and so on. At the same time you will be learning how to make better photos with your camera. How far will the flash reach? Why would you use flash on a sunny day? Use the Rule of Thirds to create better compositions. Learn to use Framing on your landscapes. Use burst mode to overcome shutter lag. How the Self-Timer is useful for night photography. The computers are used in this course to present the colour photographic examples and for minor editing in Microsoft

Windows. A camera - digital or film is required for this course. Most instruction is designed towards digital cameras. A complete set of notes - over 200 pages! - means that you will have permanent references when you are working on your own. Materials fee of \$20.00 cash on the first night. Dates: Oct. 6, Oct. 13, Oct. 19, Nov. 17, Nov. 24, Dec. 1.

6 Sessions  
 7:00-10:00 p.m.

Do you need to know how to use Excel? You can learn the basics, how to format, using IFs and lookups and relative and absolute addressing in only one weekend. You will learn to produce spreadsheets containing formulas. You will learn how to construct formulas and then replicate those formulas to other locations in the spreadsheet. Topics include entering data, formatting values, creating formulas, copying formulas, protecting data, creating graphs, adding graphics, using the spreadsheet as a database, and exporting data for use in Microsoft Word and Microsoft Access. This course is suitable for anyone using Excel XP and Excel 2000 although the classroom software is Excel 97. A complete set of course notes means that you will have a permanent reference when you are working on your own. Materials fee of \$20.00 cash on the first night. Dates: Oct. 7, Oct. 14, Oct. 21, Nov. 18, Nov. 25, Dec. 2.
